The Operator Certification Staff anticipates a long delay in processing the paperwork from ALL Open exams. A large number of applicants do not to meet the deadlines to be pre-approved; therefore, extensive time and effort must be spent processing these, often incomplete and error-filled, applications.

This delay can be eliminated by submitting all exam applications at least 30 days prior to all exams.

Please do not call inquiring when the results will be posted/sent as this only takes time away from the process. The over-burdened staff is working on getting the exams graded and the results posted to the website. We cannot get this accomplished if people are constantly asking when the exam results will be posted. They will be posted when you see the date show up on the website.

Thank you for your patience and understanding.
